

The ideal housing for all your 19" rack mountable electronics, manufactured to your specifications

EC15DS-C

EC1515DS-C

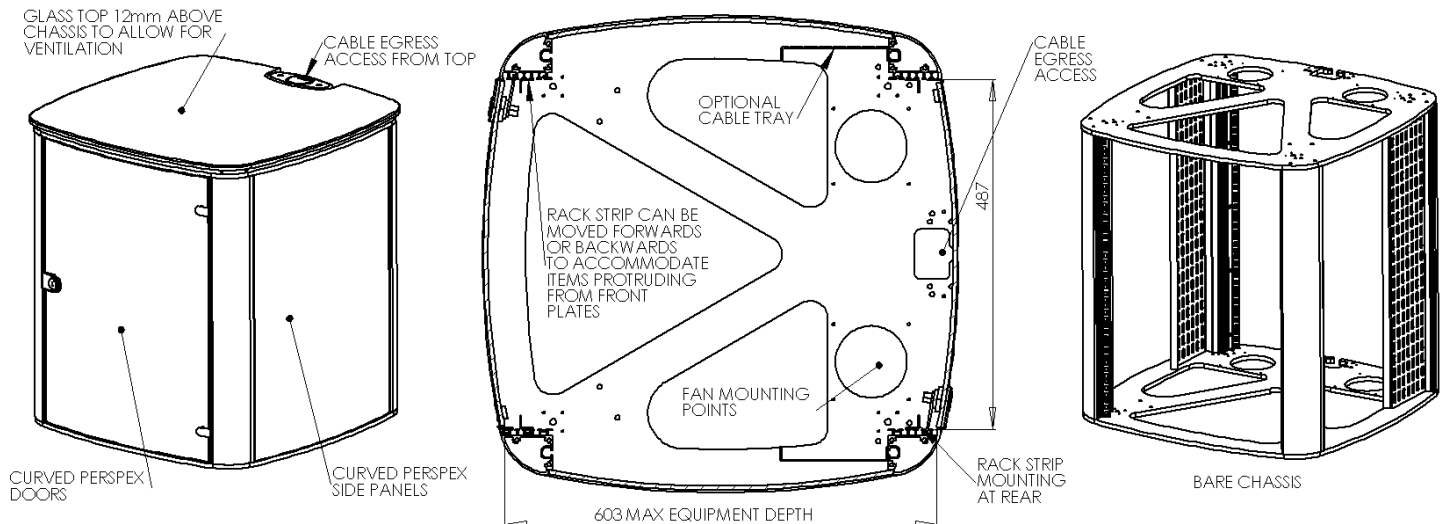

EC15D800V

The Mode-AL range of 19" racking cabinets provide an industrial quality racking system with an attractive exterior, a completely open frame work and chimney tops, providing excellent natural ventilation. If the combined load of the equipments exceeds the natural ventilation rate, the rack has the ability to mount 4 No 102 mm (4") fans per bay, to provide additional ventilation.

Manufactured from Steel top and bottom plates and aluminium uprights, the basic frame comes with rear mounted 6" cable tray both sides and depth adjustable rack strips front and rear.

Our standard finishes are smoked and frosted glass tops and doors, with acrylic sides. All the exterior panels, tops and doors can be customised to your requirements.

Mode-AL can manufacture a rack to your exact specification and include a whole host of features incorporated into the rack that no other manufacturer can provide.

Options Available:

- Adjustable front and rear rack mounts
- Cable trays
- Fan mountings at the top and bottom of the unit
- Removable side panels for quicker build time
- Adjustable shelving
- Castors as shown or levelling feet for static installations
- Rack sizes 5, 10 and 15U as standard and any size up to 43U available on special order
- Can be flat packed for transportation
- Max equipment depth 600mm (Other depths available on request)
- Choice of 4 shelf sizes

# Custom Studio Furniture

**PME181628XS1010DV**
